My concerns

May 07, 07

My Name is Jereilyn Flowers Jones. I welcome this opportunity to express my concerns with the Department of Human Services Foster Care Division of Family Children Services.

As of April 13 or ^{some where} this date, my daughter (D Amber Jones) and 5 grandchildren Kyrha Jaque Karter Tynes and Maron Joe is in there custody.

In April of 2007 a social worker came to investigate a anonymous call about the care of my daughter Kyrha Jaque Karter Tynes and made a statement of neglect. They assessed the situation and told me that she would get her some and that she would be back. She came back with 4 care of co workers and removed my family and stating the problem

was the condition of our home. And that we would contact later as for their decision concerning the children. The allegation that was made to use was incorrect. My is part of this. My daughter is an addict, and I'm a recovering addict.

My children was court ordered to DHS for a word of month and no proof, no pictures, no written statement from other concerned people. They all are healthy children. And there is old and it did and still do need work on.

We ask for the help this said ~~off~~ but nothing. Nothing we ask for substance or places to get help for nothing happen.

My children was in a group together until I was told I had to sign an agreement

from. I did this. My daughter
D'Anna was placed in Foster
Care and been there since
I had done what they
have ask of me except
a drug test which I have
to pay and to at Metro
County. I can gone submit
my drug test result on
Tuesday May 8 in Court.

My daughter is 9 yrs old
she has been moved 5 times
she has no school record
I received and overhearing
Ruth saying that she
was in an accident. They
don't ever occur and
attempt to get informed in
though a lawyer, we never
received any information for
part. My was address to
do continued and come
straight out in as come
on medical a without

my knowledge, her medical
needs are not being met.
Her illness has not been
replace all of this to me
to neglect.

There is so much
more I would like to say
as a witness.

Please accept my letter
of concern and I hope you
read it best you can.

Thank You
So much!!
